Child Abuse and Neglect in Missouri

Report for Calendar Year 2010

Missouri Department of Social Services 221 West High Street P.O. Box 1527 Jefferson City, Missouri 65102-1527

Department of Social Services Mission Statement

Maintain or improve the quality of life for Missouri citizens.

Our Vision:

Safety, permanency, well being and equity for every Missouri child!

Our Mission:

To protect Missouri children from abuse and neglect; assuring their safety and well being by partnering with families, communities and government in an ethically, culturally and socially responsible manner.

Our Guiding Principles:

PREVENTION - Families are supported through proactive, intentional activities that promote positive child development and prevent abuse and neglect.

PROTECTION - Children have a right to be safe and live free from abuse and neglect.

PRESERVATION – The cultural and ethnic diversity of the children and families of Missouri are recognized, honored and respected.

PARTNERSHIP - Families, communities and government share the responsibility to create safe, nurturing environments for families to raise their children.

PRACTICE - The family is the basic building block of society and is irreplaceable. Families are empowered to identify and access services that support, preserve and strengthen their functioning.

PERMANENCY - Children are entitled to enduring, nurturing relationships that provide stability and belonging through family and community connections.

PROFESSIONALISM - Staff are valued, respected and supported throughout their career, and in turn provide quality service with value, respect and support for families.

Your Potential. Our Support.

JEREMIAH W. (JAY) NIXON, GOVERNOR • BRIAN KINKADE, INTERIM DIRECTOR

CANDACE A. SHIVELY, DIRECTOR CHILDREN'S DIVISION P.O. BOX 88 • JEFFERSON CITY, MO 65103-0088 WWW.DSS.MO.GOV • 573-522-8024 • 573-526-3971 FAX

June 2011

Dear Friends and Colleagues:

Thank you for your interest and concern regarding child abuse and neglect in Missouri. We are pleased to inform you that the Children's Division has implemented a new data system, referred to as Family and Children Electronic System (FACES). This data system is meeting federal requirements in Missouri's State Automated Information and Management System. This report illustrates information from our FACES system for all children reported through the Child Abuse and Neglect Hotline Unit including the substantiation status of the child and the number served by a program within the Missouri Children's Division. This report includes child abuse and neglect reports and referrals received during Calendar Year 2010. Additionally, the report includes a description of Missouri's unique multiple-response system to responding to child abuse and neglect reports. For over ten years, the Children's Division has worked to enhance our family-centered, community-based practice through the use of family assessments.

As evident in this report, there is a continued need for strong community support for Missouri's children and families. Through ongoing support of committed citizens, such as yourself, as well as community partnerships, we believe that our shared desires for the improvement and support of Missouri's children and families will be realized.

Sincerely,

Candace A. Shively Director

Introduction

This report compiles data collected by the Missouri Department of Social Services (DSS), Children's Division (CD) in the course of Child Abuse and/or Neglect (CA/N) investigations/assessments. The data is current as of June 2010. As a result of pending investigations or changes in conclusions, the data is prone to change.

Reports to the Child Abuse/Neglect Hotline

Over the past year, the Child Abuse/Neglect Hotline Unit (CANHU) received 56,897 reports of child abuse/neglect, involving 83,503 children. The CANHU is operated year-round on a 24 hours per day, seven days per week basis by 41 full time and 7 part time trained and experienced Children's Service Workers. Missouri's toll-free number for reporting child abuse/neglect is **1-800-392-3738**.

When a call is received at the CANHU, information is analyzed to determine whether:

- the child is under age 18;
- the alleged perpetrator has care, custody and control of the child; and

• the report meets the legal definition of abuse and/or neglect as stipulated in 210.110, RSMo (see definitions on page 2).

Within moments of receiving a report, the information is forwarded electronically to one of the 114 county offices or the St. Louis City office for investigation/assessment. Investigations/assessments must be initiated within 24 hours or immediately when it is determined that the child is in imminent danger. Exceptions are when the only allegation is educational neglect or the allegation is an old allegation and the child is protected. In this case, an investigation/assessment must be initiated within 72 hours. Children's Service Workers have 30 days to complete their investigations/assessments.

A call to the hotline is referred to as a report or reported incident of child abuse/neglect. A report may involve from one to several children. Compared to 2009, the number of reports increased in 2010.

	and Annual	Percent Chang	ge, 2006-2010	
	Total	Annual	Total	Annual
Year	Reports	Change	Children	Change
2006	51,383		75,474	
2007	52,979	3.1%	77,481	2.7%
2008	50,565	-4.6%	75,781	-2.2%
2009	51,896	2.6%	75,544	-0.3%
2010	56,897	9.6%	83,503	10.5%

Note: All counts of children are duplicated because a child may be reported more than once during the year.

Introduction

Definitions

Legal:

The Missouri Child Abuse Law, Section 210.110 RSMo defines:

Abuse as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control, except that discipline including spanking, administered in a reasonable manner, shall not be construed to be abuse; and

Neglect as failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being.

Care, custody and **control** of the child, includes but is not limited to the parents or guardian of a child, other members of the child's household, or those exercising supervision over a child for any part of a twenty-four hour day. Those responsible for the care, custody and control shall also include any adult who, based on their relationship to the parents of the child, members of the child's household or the family, has access to the child.

Investigation is the collection of physical and verbal evidence to determine if a child has been abused or neglected.

Family assessment and services is an approach which provides for a prompt assessment of a child and their family when the child has been reported to the CD as a victim of abuse or neglect by a person responsible for that child's care, custody or control. Family assessments include the provision of community-based services to reduce the risk of abuse and neglect and to support the family. This approach takes the place of the traditional investigation.

Operational:

At the end of each child abuse/neglect investigation/assessment, the Children's Service Worker reaches a conclusion. The following are operational definitions for investigative conclusions:

Substantiated: A finding that abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Service Worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts and those with preponderance of evidence.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the Children's Service Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the Children's Service worker has not identified a specific threat exists for the child.

The following are definitions for Family Assessment conclusions:

Services Needed: The family has an identified need for services. CD will continue to work with the family after the assessment is completed and will continue providing services for some period of time.

Services Needed-Linked Initial 30 Days: The family has an identified need for community services. The identified services were linked with the family during the 30-day family assessment process. CD will not continue working with the family when the family assessment process is completed. The Children's Service Worker should contact referral providers to verify that the family is receiving services.

Introduction

Services Needed-Family Declined: The Children's Service Worker has identified a service that may be beneficial to the family; however, the family declined to receive the services. The child's safety has been assessed, and there is no evidence that warrants court intervention.

Services Not Needed: The family does not have an identified need for additional services. Families may be receiving services prior to the date of the hotline. Services Not Needed is used only when the family does not have additional service needs.

Non-cooperative/Child Safe: Enough information has been obtained to ensure that the child is safe; however, the family refuses to participate in the family assessment process and the allegations do not warrant a co-investigation with law enforcement or court involvement.

For a small number of reports, the above definitions are not applicable. Other conclusions for either investigations or assessments include Unable to Locate, Inappropriate Report, Located Out of State, Home Schooling, and School Investigation by School Board (Substantiated, Unsubstantiated, Unresolved).

Methodological:

The following are technical definitions used in the computations of the statistics throughout this report:

Reported incident: An allegation of child abuse/neglect made to the hotline which meets the legal definitions for abuse/neglect and for care, custody, and control. A reported incident may involve more than one child and more than one alleged perpetrator. The terms "report," "incident" and "reported incident" are used interchangeably throughout this report.

Incident conclusion: The Children's Service Worker assigns a conclusion for each child and for each alleged perpetrator involved in an incident. If at least one child is substantiated, the incident is considered to be substantiated.

Incident category of abuse/neglect: Up to fifty findings of abuse/neglect can be assigned to each substantiated child. Each incident may have up to six categories of abuse/neglect because each child may be substantiated for different types of abuse/neglect. For incidents involving more than one child, each category of abuse/neglect is counted once if at least one child was substantiated for that category.

Reported child: A child named in a reported incident of child abuse/neglect. A child may be reported more than one time during the year, and unless otherwise indicated, counts of children are duplicated in this report.

Child conclusion: The Children's Service Worker assigns a conclusion for each child involved in an incident. For example, some children in the report may be substantiated while others may be unsubstantiated.

Child category of abuse/neglect: Each substantiated child may be assigned up to six categories of abuse/neglect.

Alleged perpetrator: A person named as the perpetrator in a reported incident of child abuse/neglect. An alleged perpetrator may be involved in more than one incident during the year. Unless otherwise indicated, counts of alleged perpetrators are duplicated in this report.

Alleged perpetrator conclusion: The Children's Service Worker assigns a conclusion to each alleged perpetrator involved in an incident. One perpetrator in a report may be substantiated while another may be unsubstantiated.

Child Abuse/Neglect Investigations/Family Assessments

Children's Service Workers investigate/assess each report to determine if abuse/neglect is occurring or has occurred and evaluate the family's need for services. Thorough investigations/assessments require hours of interviews and information collection, and usually include the major steps listed below:

- Contacting the reporter, if known, for additional information before proceeding with the investigation;
- Contacting appropriate law enforcement personnel or multidisciplinary team members to request a co-investigation if the alleged report, if true, would constitute a violation of the law;
- Making a determination regarding the safety of the children within 24 hours, or immediately, if deemed as an emergency;
- Contacting the School District Liaison when the victim in the child abuse/neglect report is school-aged;
- Determining the safety of all other children in the household within 72 hours;
- Consulting with the Chief Investigator within 72 hours;
- Contacting collateral persons;
- Interviewing witnesses;
- Interviewing the non-offending parent;
- Interviewing the alleged perpetrator(s);
- Evaluating and documenting all information collected and observed;
- Determining whether abuse/neglect has occurred or is occurring;
- Evaluating the family's need for services and making appropriate referrals for needed services; and
- Notifying the child's parent(s), alleged perpetrator, School District Liaison and if applicable, the Mandated reporter of the report conclusion and related findings.

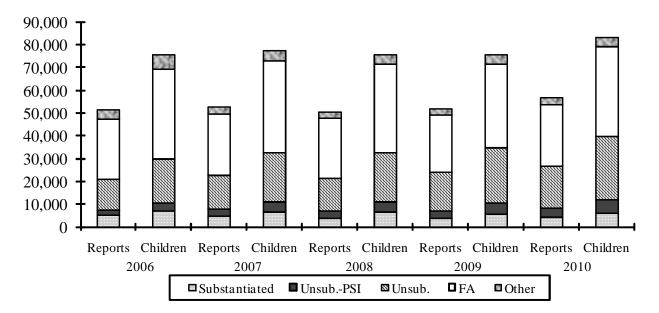

CD policy requires completion of investigations/assessments within 30 days. When the Children's Service Worker determines that there is reasonable cause to believe that abuse/neglect has occurred, or is occurring, the family is advised of available services. The family also is offered services when the investigative conclusion is Unsubstantiated-Preventive Services Indicated or when a Family Assessment indicates the need for services.

Reported Incidents and Children by FA Conclusion, 2006 - 2010

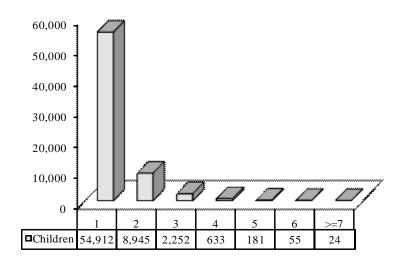

2010 Child Abuse/Neglect Reports and Children by Month of Report

During 2010, the month with the most reports was September with 5,530 reports (8,199) children). June and February had the fewest number of reports and children respectively, 4,138 and 5,828.

2010 Child Abuse/Neglect Children by Number of Incidents Reported in the Same Year

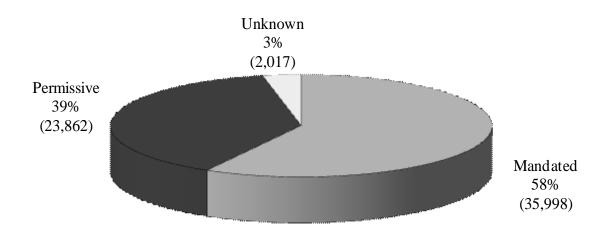

In 2010, a duplicated number of 83,503 children were reported. Unduplicated this number reduces to 67,002 children. Of those children, 54,912 had one report during the year. The remaining 12,090 children had more than one report during 2010.

Reporters

Reports of child abuse/neglect can be made by persons who are either "mandated" or "permissive" reporters. Mandated reporters are required by state statute to report abuse/neglect when they have reasonable cause to suspect a child has been or is being abused. Mandated reporters include health and education professionals, social workers and foster parents, among others. Permissive reporters are those people not required to report suspected abuse/neglect, such as relatives or neighbors. Effective August 28, 2003, Christian Science practitioners were added to the definition of ministers with regard to the indviduals required to report incidents of suspected child abuse/neglect. Minister is defined as "any person while practicing as a minister of the gospel, clergyperson, priest, rabbi, Christian Science practitioner, or other person serving in a similar capacity for any religious organization who is responsible for or who has supervisory authority over one who is responsible for the care, custody, and control of a child or has access to a child", section 352.400, RSMo.

Fifty-eight percent (58%) of the reports made in 2010 were made by mandated reporters and thirty-nine percent (39%) were made by permissive reporters.

Child Abuse/Neglect Reporters by Type of Reporter, 2010

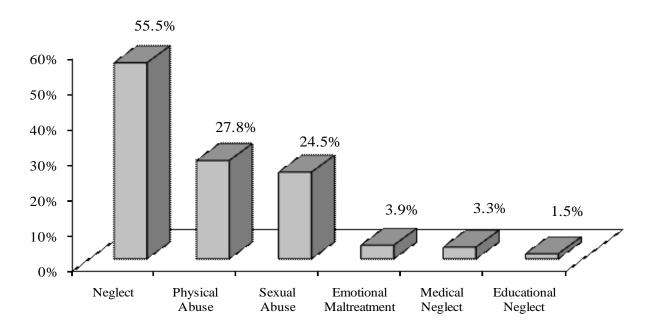

RSMo 210.115. Reports of abuse or neglect, who shall make. – When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel that are engaged in the examination, care, treatment, or research of persons, and any other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child care worker, juvenile officer, probation or parole officer, jail or detention center personnel, teacher, principal or other school official, minister as provided by section 352.400, RSMo, peace officer or law enforcement official, or other person with responsibility for the care of children, has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, that person shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.109 to 210.183.

The most common mandated reporter occupation was school official, followed by social worker and law enforcement officers.

	Number	Percent
Permissive	23,862	38.6%
Principal or other school official	8,439	13.6%
Social worker	7,797	12.6%
Peace officer or law enforcement official	7,462	12.1%
Nurse	3,023	4.9%
Mental health professional	2,636	4.3%
Unknown	2,017	3.3%
Other person with responsibility for care of children	1,686	2.7%
Teacher	1,301	2.1%
Physician	849	1.4%
Juvenile officer	691	1.1%
Day care center or other child care worker	616	1.0%
Psychologist	370	0.6%
Other health practitioner	238	0.4%
Other hospital/clinic personnel	237	0.4%
Foster parents	177	0.3%
Minister	119	0.2%
Probation or parole officer	117	0.2%
Intern	108	0.2%
Medical examiner	60	0.1%
Coroner	33	0.1%
Jail or detention personnel	17	0.0%
Dentist/Dental hygienist	15	0.0%
Resident	5	0.0%
Chiropractor	1	0.0%
Optometrist	1	0.0%

Note: Reporters exceed reports because more than one person may report an incident.

During the year, 6,055 children were involved in incidents that were substantiated for abuse or neglect. When a Children's Service Worker determines there is reasonable cause that abuse/neglect has occurred, each child can be assigned up to six categories of abuse/neglect. As the graph below indicates, the most prevalent category is neglect followed by physical abuse and sexual abuse.

Substantiated Children by Category of Abuse/Neglect, 2010

	Number	Percent
Neglect	3,358	55.5%
Physical Abuse	1,683	27.8%
Sexual Abuse	1,485	24.5%
Emotional Maltreatment	234	3.9%
Medical Neglect	202	3.3%
Educational Neglect	88	1.5%

Percent is the percentage of total substantiated children. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Information gathered during an investigation of child abuse/neglect can help identify factors which place a child at risk for abuse/neglect. In addition to establishing an investigative conclusion for each child, Children's Service Workers may designate up to four **Observed Family Characteristics** for each reported incident. For families where abuse/neglect is found, these characteristics may indicate which services could help prevent the reoccurrence of abuse/neglect. It is important to note that these are not absolute counts. For instance, a problem with alcohol or other drugs may be difficult to detect during the course of an investigation.

The family characteristics reported in 2010 are similar to those reported during the last five years. Fortynine percent (49%) of the families involved in substantiated incidents had adequate living conditions. Fortytwo percent (42%) of the substantiated incidents involved families that had an extended family support system. The top twenty family characteristics are listed below.

	Number	Percent
Adequate living conditions	2,112	49.2%
Extended family support system	1,835	42.8%
Amenable to services	1,562	36.4%
Lack of parenting skills	1,220	28.4%
Single parent household	1,212	28.2%
Community/cultural support	785	18.3%
Other drug-related problem(s)	749	17.5%
Appropriate parenting skills	538	12.5%
Domestic violence	437	10.2%
Heavy continuous child care reponsibility	403	9.4%
Recent/frequent relocation	403	9.4%
Insufficient/misuse of income	375	8.7%
Dangerous living conditions	372	8.7%
Recent loss/addition to household members	338	7.9%
Appropriate child development knowledge	322	7.5%
Loss of employment	304	7.1%
Alcohol-related problem(s)	262	6.1%
New baby in home/pregnancy	239	5.6%
Crowded living conditions	237	5.5%
Marital problems	219	5.1%

Characteristics of Families Involved in Substantiated Incidents, 2010

Percent is the percentage of total substantiated incidents. Percent total is greater than 100 because up to four family characteristics may be reported for each incident.

Child Abuse/Neglect Children, 2010

In 2010, forty-five percent (45%) of the substantiated children were male, and fifty-five percent (55%) were female. Unlike neglected and physically abused children, where a majority were male, the majority of sexually abused children were female.

Approximately four-fifths of the substantiated children were white and one-fifth were black. The majority of neglected, physically abused, and sexually abused victims were white followed by black victims.

Jan Feb Mar Apr May Jun Jul Aug Sep Oct Nov Dec -Substantiated Neglect Physical Abuse SexualAbuse

Child Abuse/Neglect Children by Month of Report, 2010

Most substantiated incidents were reported in June with 550 children. The lowest number of substantiated children (367) were reported in December. The highest incidence of neglect, physical abuse, and sexual abuse occurred in June (316), April (175), and April (125) for children, respectively. The lowest occurrences of neglect, physical abuse, and sexual abuse were in December, June and December with 152, 111, and 79, respectively.

In addition to assigning categories of abuse or neglect, a Children's Service Worker may also describe up to fifty specific findings of abuse. For neglected children the most frequent worker descriptions are those typically associated with neglect, such as a lack of supervision and unsanitary living conditions. The ten most frequently reported worker findings for neglected children are listed below.

	Number	Percent
Lack of Supervision	1,708	50.9%
Unsanitary Living Conditions	686	20.4%
Unsafe/Inadequate Shelter	663	19.7%
Failure to Protect	338	10.1%
Lack of Food	138	4.1%
Untreated Illness/Injury	117	3.5%
Abandonment	86	2.6%
Parents Indifferent to Educational Needs	82	2.4%
Blaming, Verbal Abuse, Threatening	79	2.4%
Locking in or out, expelling from home	68	2.0%

Percent is the percentage of total neglected children. Percent total is greater than 100 because a worker may list up to fifty specific findings for each child.

For physically abused children, the most frequently reported worker findings were bruises, welts or red marks and other physical abuse or injury. Lack of supervison is also cited quite frequently, suggesting that neglect may occur in some abusive situations. The ten most often reported worker findings for physically abused children are listed below.

	Number	Percent
Bruises, Welts, Red Marks	836	49.7%
Other Physical Abuse or Injury	355	21.1%
Methamphetamine Lab Exposure	276	16.4%
Unsafe/Inadequate Shelter	232	13.8%
Abrasions, Lacerations	189	11.2%
Lack of Supervision	134	8.0%
Inappropriately Giving Drugs	128	7.6%
Other	124	7.4%
Fractures (Other than Skull)	83	4.9%
Blaming, Verbal Abuse, Threatening	83	4.9%

Percent is the percentage of all physically abused children. Percent total is greater than 100 because a worker may list up to fifty specific findings for each child.

For sexually abused children, the most frequently reported worker finding was fondling or touching followed by other sexual abuse. The ten most often reported worker findings for sexually abused children are listed below.

	Number	Percent
Fondling/touching	835	56.2%
Other sexual abuse	347	23.4%
Oral sex, sodomy	340	22.9%
Intercourse	286	19.3%
Digital penetration	215	14.5%
Pornography	48	3.2%
Sexually Transimitted Disease	18	1.2%
Genital/Anal bleeding	7	0.5%
Other	6	0.4%
Prosititution	0	0.0%

Percent is the percentage of all sexually abused children. Percent total is greater than 100 because a worker may list up to fifty specific findings for each child.

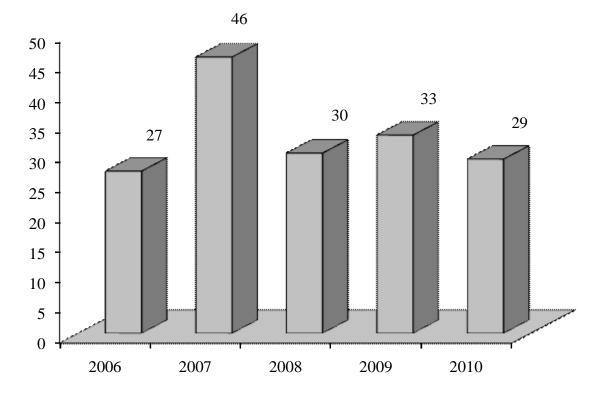

Child Abuse/Neglect Fatalities

The number of substantiated fatalities in 2010 decreased compared to 2009. Twenty-nine children died as a result of child abuse/neglect in 2010, compared to thirty-three in 2009.

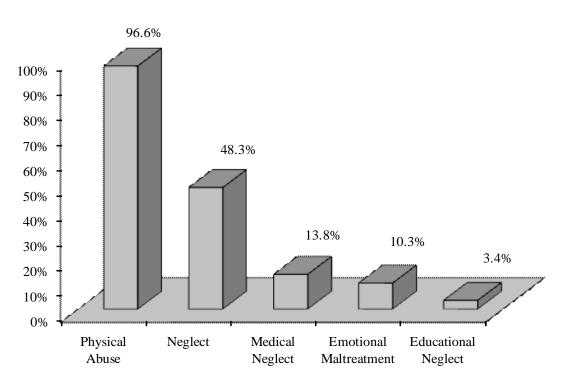

These figures only represent children whose deaths are brought to the attention of CD. Recent media attention, both on a state and national level, has focused on children whose deaths were never brought to the attention of the proper authorities despite the suspicious nature of their deaths. When fatal child abuse goes undetected, other children in the home and community remain at risk.

Effective August 28, 2000, if the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner, or physician shall notify the division of the child's death. In all other cases, the medical examiner or coroner shall accept the report for investigation, shall immediately notify the division of the child's death as required under section 58.452, RSMo, and shall report the findings to the child fatality review panel established pursuant to section 210.192, RSMo.

The number of fatalities reported during any given year may change as a result of pending investigations, changes in conclusions, and deaths not reported in a timely manner.

Substantiated Fatalities, 2006 - 2010

Substantiated Fatalities by Category of Abuse/Neglect, 2010

A majority, ninety-seven percent (97%), of the CA/N fatalities were caused, at least in part, by physical abuse. Neglect was present in forty-eight percent (48%) of the CA/N fatalities. Medical Neglect also contributed to some child fatalities.

	Number	Percen
Physical Abuse	28	96.6%
Neglect	14	48.3%
Medical Neglect	4	13.8%
Emotional Maltreatment	3	10.3%
Educational Neglect	1	3.4%

Percent is the percentage of total substantiated fatalities. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

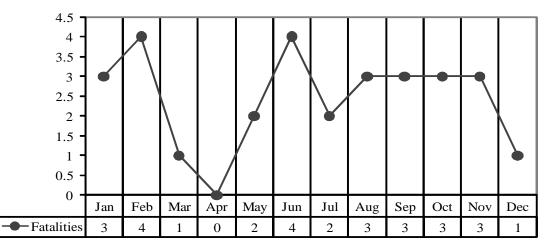

Child Demographics

Total	29	100.0%			

Of the 29 children involved in substantiated fatalities in 2010, the majority were under four years of age. Forty-eight percent (48%) of the children were male and fifty-two percent (52%) were female. Seventytwo percent (72%) of the children were white and twenty-one percent (21%) were black.

Substantiated Fatalities by Month of Death, 2010

The highest incidence of child deaths (4) occurred in February and June. There was at least one fatality in every month of the year except for April.

Perpetrator Information

Perpetrator Demographics

Substantiated Perpetrators, 2010

The majority sixty-four (64%) of all perpetrators were between 20 and 39 years of age. Fifty-four percent (54%) were male and forty-one (41%) were female. The race of substantiated perpetrators is similar to that of substantiated children. Seventy-five percent (75%) were white and sixteen percent (16%) were black.

The most common type of alleged perpetrator was the natural parent of the child.

	Alleged	Substantiated	Percent Found
	Perpetrators	Perpetrators	Substantiated
Natural parent	75,395	4,893	6.5%
Parent's paramour	8,390	675	8.0%
Stepparent	7,403	559	7.6%
Unknown	7,007	299	4.3%
Grandparent	4,834	379	7.8%
Other	3,873	521	13.5%

Other relative	291	41	14.1%
Self	246	12	4.9%
Spouse/paramour	174	24	13.8%
	114,034	7,723	6.8%

Note: A perpetrator may be involved in more than one incident during the report year.

Perpetrator Information

Children's Service workers may indicate up to four **Observed Perpetrator Characteristics** for each substantiated perpetrator of child abuse/neglect. These characteristics are used to assist in determining which services may be beneficial to a family. For instance, if perpetrators have unrealistic expectations of children, providing information on child development can help teach more appropriate disciplinary techniques.

In 2010, the most prevalent perpetrator characteristic was having a history of criminal activity, which was the case for approximately twenty-six percent (26%) of the substantiated perpetrators. Children's Service workers described twenty-five percent (25%) of the perpetrators as having an adequate support system.

	Number	Percent
History of criminal activity	1,410	26.4%
Adequate support system	1,323	24.8%
Unemployed	1,132	21.2%
Amenable to services	1,092	20.4%
Other drug-related problem(s)	1,038	19.4%
Mental/emotional disturbance	842	15.8%
No apparent mental/emotional disturbance	816	15.3%
Immaturity	726	13.6%
Unrealistic expectations of child	526	9.8%
Alcohol-related problem(s)	471	8.8%
Loss of control during discipline	381	7.1%
High school education or higher	362	6.8%
Low self-esteem	332	6.2%
Parental history of abuse/neglect as a child	324	6.1%
Pattern of violent behavior	297	5.6%
Undetermined	237	4.4%
Less than high school education	223	4.2%
No one to call on in time of crisis	180	3.4%
Other	107	2.0%
Institutional report/unknown perpetrator	99	1.9%
Illness	67	1.3%
Incapacity due to physical handicap	30	0.6%
Mental retardation	23	0.4%

Percent is the percentage of total substantiated perpetrators. Percent total is greater than 100 because a worker may list up to four characteristics for each perpetrator.

Missouri's Child Protection Services system culminated from a collaborative effort between the Children's Division (CD), elective officials, community organizations and private citizens. Senate Bill 595 (SB 595) was signed into law in 1994 and expanded statewide in 1998. The primary focus of SB 595 is to protect children from abuse/neglect in the least disruptive and intrusive way, that recognizes the value of the family. In addition, the protection is provided in the most efficient and effective manner possible within the framework of state, community, and family resources.

The definition of child abuse/neglect and the criteria for reporting (including mandated reporting) remain the same. A continuing process of the Child Protective Service system has been how the division responds to reports of child abuse or neglect. When a local county office receives a report, the report is screened to determine the appropriate intervention method. If the report indicates behaviors that constitute criminal violation, the response to the report is an evidentiary, fact-finding Investigation. It is CD policy to notify the appropriate local law enforcement agency to assist in the Investigation.

Reports of child abuse or neglect that do not fall into the category of criminal violation may be responded to by conducting a Family Assessment. The main purpose of a Family Assessment is to determine the child's safety and the family's needs for services. Taking a non-punitive assessment approach has created an environment that assists the family and the Children's Service worker in developing a rapport and building on existing strengths to create a mutually agreed upon plan. The attention is centered on long term effects of the intervention (success = independence) versus an individual incident (failure = dependence).

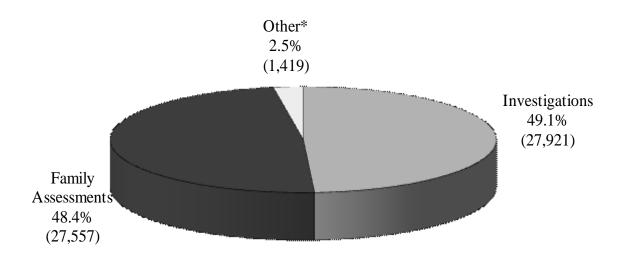

In 1994, the Missouri General Assembly mandated a two-year independent evaluation of the Family Assessment approach to addressing child abuse/neglect (CA/N). The evaluation completed in June 1997 concluded that the safety of children was improved, CA/N reports decreased, families received services more quickly, families were more cooperative, and community resource utilization increased. Additionally, the community joined together in coordinating available resources to assist children and families in need. These communities have continued to meet today's challenges by working to develop resources to better address needs.

A five year follow up independent evaluation of the Family Assessment response conducted by the Institute of Applied Research was published in 2004. Results are available on their website at <u>www.iarstl.org</u>.

An investigative delivery approach is designed to focus the efforts of CD and law enforcement on reports that indicate a crime had been committed. The remaining families are served through Family Assessments, in order to address any service needs. Families who are investigated and those who receive the Family Assessment response both receive prompt and effective delivery of services in order to address their needs.

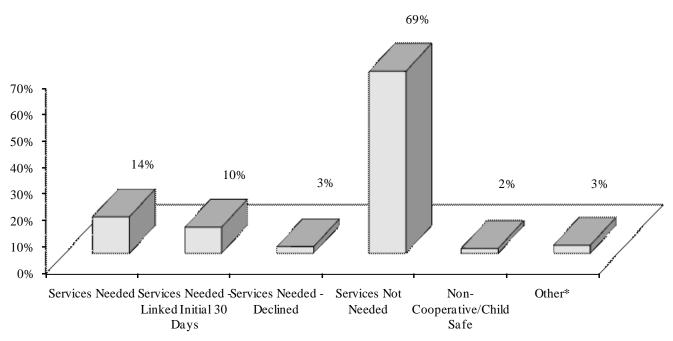

Track assignments determine which approach, assessment or investigation, the Children's Service Worker will take in response to a child abuse/neglect report. Reports that initially receive a track assignment of assessment may not, however, be concluded assessment (i.e., services needed, services not needed, or non-cooperative/child safe). Assessment tracks not concluded as such may have conclusions of unable to locate, located out of state, or home schooling. Therefore, the statistics on pages 21, 22, and 24 are not based on 26,709, the number of reports concluded assessment, but on the number of reports assigned to the Family Assessment approach. The number of reports during 2010 assigned to the Family Assessment approach equaled 27,557.

The Family Assessment approach began in selected counties in 1995. By June 1999, all counties had implemented the Family Assessment approach.

Reports by Type of Response During 2010

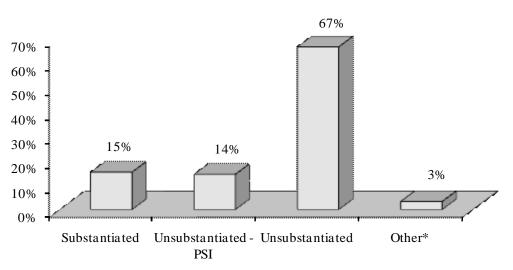

* Includes incidents with the conclusion of Inappropriate Report and incidents in which the conclusions are pending and the final response assignment could not be determined.

Child Protection System: Family Assessments by Conclusion, 2010

Of the 27,557 reports assigned to the Family Assessment approach, fourteen percent (14%) of the families were in need of services, sixty-nine percent (69%) did not need services, and only two percent (2%) were non-cooperative. Ten percent (10%) of the families were in need of services and linked in the initial 30 days. Three percent (3%) were in need of services but declined receiving any service.

Of the 27,921 reports assigned to the investigative track, fifteen percent (15%) were substantiated.

Child Protection System: Investigations by Conclusion, 2010

* Other includes Unable to Locate, Inappropriate Report, Located Out of State, and Home Schooling (based on response assignment).

Family Assessment Children, 2010

During the year 39,386 children were involved in reports screened as Family Assessment. Fifty-two percent (52%) of the family assessment children were male and forty-eight percent (48%) were female. Eighty percent (80%) of the children were white and eighteen percent (17%) were black.

Of the Family Assessment children 5,916 children had a conclusion of services needed, 3,861 a conclusion of services needed-linked in the initial 30 days, and 1,053 a conclusion of services needed but the family declined services. The majority of the children that needed services were white followed by black children. Approximately half of the children that needed services were male and half were female.

The goals of the Family Assessment approach are to assure child safety, address the strengths of the family and to identify and treat the family's needs. Services and supports for families are designed to build on the strengths and resources of families and communities. In keeping with this philosophy, the list of **Observed Family Characteristics** was expanded to include more strength-based characteristics. Some of the new characteristics are extended family support systems, problem-solving skills and good physical/mental health.

In sixty-eight percent (68%) of the assessments, the families had adequate living conditions. Thirty-nine percent (39%) of the assessments involved families that had an extended s family support system. Other frequently cited characteristics include amenable to services, single parent household, appropriate parenting skills, and community/cultural support. The top 25 characteristics are listed below.

Child Protection System: Family Assessment Approach Characteristics of Families Involved in Family Assessments

	Number	Percent
Adequate living conditions	18,614	67.5%
Extended family support system	10,700	38.8%
Amenable to services	9,765	35.4%
Single parent household	7,428	27.0%
Appropriate parenting skills	6,440	23.4%
Community/cultural support	6,360	23.1%
Appropriate child development knowledge	3,862	14.0%
Lack of parenting skills	1,963	7.1%
Stable family relationships/household	1,878	6.8%
Good physical/mental health	1,847	6.7%
Recent/frequent relocation	1,744	6.3%
Heavy continuous child care reponsibility	1,679	6.1%
Problem-solving skills	1,541	5.6%
Crowded living conditions	1,393	5.1%
Recent loss/addition to household members	1,241	4.5%
Insufficient/misuse of income	1,175	4.3%
Loss of employment	1,137	4.1%
New baby in home/pregnancy	979	3.6%
Other drug-related problem(s)	942	3.4%
Domestic violence	791	2.9%
Marital problems	766	2.8%
No history of violence	748	2.7%
Stable marriage	698	2.5%
Alcohol-related problem(s)	548	2.0%
Manages finances well	455	1.7%

Percent is the percentage of total reports assigned to the Family Assessment approach. Percent total is greater than 100 because up to 15 family characteristics may be reported for each Family Assessment.

The characteristics for families involved in investigations are similar in rank to those of families in the assessment response. In sixty-one percent (61%) of the investigations, the families had adequate living conditions. Amenable to services, extended family support system, single parent household, and appropriate parenting skills were also cited frequently.

Investigations had a slightly lower percentage in families with extended family support systems and families with adequate living conditions, 37% and 62% respectively, as compared to assessment families who had 39% and 68% respectively. The top 25 characteristics are listed below.

Child Protection System: Family Investigation Approach

	Number P	ercent
Adequate living conditions	17,376	62.2%
Extended family support system	10,436	37.4%
Amenable to services	9,441	33.8%
Single parent household	6,614	23.7%
Community/cultural support	5,795	20.8%
Appropriate parenting skills	5,202	18.6%
Appropriate child development knowledge	3,088	11.1%
Lack of parenting skills	2,661	9.5%
Heavy continuous child care reponsibility	1,769	6.3%
Recent/frequent relocation	1,723	6.2%
Other drug-related problem(s)	1,600	5.7%
Stable family relationships/household	1,595	5.7%
Good physical/mental health	1,543	5.5%
Recent loss/addition to household members	1,430	5.1%
Problem-solving skills	1,300	4.7%
Domestic violence	1,281	4.6%
New baby in home/pregnancy	1,170	4.2%
Crowded living conditions	1,125	4.0%
Loss of employment	1,116	4.0%
Insufficient/misuse of income	1,115	4.0%
Marital problems	915	3.3%
Alcohol-related problem(s)	651	2.3%
No history of violence	626	2.2%
Stable marriage	565	2.0%
Dangerous living conditions	481	1.7%

Percent is the percentage of total reports assigned to the investigative approach. Percent total is greater than 100 because up to 15 family characteristics may be reported for each investigation.

CD has several programs designed to provide treatment and to help prevent future occurrence of child abuse and neglect.

Family-Centered Services (FCS): FCS are provided to families and children in their own homes when a child abuse/neglect investigation has been concluded Substantiated, Unsubstantiated-Preventive Services Indicated or Family Assessment-Services Needed. These services are also provided to families who voluntarily seek help and to families whose children are placed out of the home. Services are provided following a family-centered assessment to identify risk issues, family strengths and service needs. A family treatment plan is developed with the family to help them change the conditions which brought them to the attention of CD. Services are designed to help the family direct their own affairs and provide suitable care for the children. The primary purpose of FCS is to improve and maintain the family unit or to reunify the family when alternative care services are provided. Services are provided by CD staff and/or purchased or provided by community agencies. Purchased services include day care, family and/or individual counseling, home-based family-centered services, evaluation and diagnosis, homemaker services and respite care, among others.

- During 2010, there were 9,805 FCS cases opened in Missouri.
- In 2010, fifty-eight percent (58%) of all FCS case openings were the result of a Family Assessment.

Variances in data for 2006 and 2007 were the result of conversion to a new information system.

Intensive In-Home Services (IIS): IIS are intensive in-home services designed to prevent unnecessary out-of-home placement of children. An in-home specialist provides a variety of services to the entire family to address the crisis that would normally necessitate out-of-home care for a child. Services are delivered immediately at the time of crisis and are time-limited, usually four to six weeks. In-home specialists carry small caseloads of two families. This enables them to spend as much time with the family as needed. The emphasis of IIS is on strengthening the entire family by improving its problem-solving capabilities and teaching them necessary life skills. Among other services, families may receive family therapy, individual and marital counseling, parenting education, child development training, household maintenance and nutritional training, job readiness training and referrals to other community resources. Families authorized for IIS may have children who have been abused or neglected, have committed a status offense, have displayed delinquent behavior, or who are seriously emotionally disturbed and are at imminent risk of being removed from the home. This service is voluntary and at least one caretaker must be willing to participate.

Out-of-Home Placement: Out-of-home care is provided in situations where a parent or parents are incapable of providing a child or children with adequate social, emotional and physical care. Out-of-home is defined as care provided in licensed foster or approved relative family homes, in licensed residential facilities, or in licensed foster group homes. The service provides substitute settings for children. Children are placed only after it is determined that they cannot remain at home.

Crisis Nurseries: The first state-funded crisis nurseries began providing services to children and their families in May 1993. There are nine of these facilities. Crisis nurseries are child care facilities which protect children by providing a safe environment at a time when the chances of abuse/neglect in the home are increased. Parents voluntarily request and arrange this service directly with the crisis nursery.

Child Abuse/Neglect Review Board: Children's Service Workers reach a conclusion on each child abuse/ neglect investigation and notify the parents and alleged perpetrator (if different than the parents) by letter of the conclusion. In some investigations where the conclusion is substantiated, the alleged perpetrator may disagree with the finding. The alleged perpetrator may appeal to the Child Abuse/Neglect Review Board for review of the investigation by contacting the local CD office within 60 days of the notification of the finding. If there are pending criminal charges, the request may be made 60 days from the court's final disposition or dismissal of charges. If convicted, there is no appeal.

The Child Abuse/Neglect Review Board consists of five boards of nine private citizens appointed by the Governor. These boards each meet monthly to review child abuse/neglect appeals. They listen to testimony from CD staff, the alleged perpetrator, and representatives of the child and then make a decision to uphold or reverse the original CD decision. During 2010, the review board heard 405 cases. The percentage of cases upheld by the Board was 65%.

Following the Child Abuse and Neglect Review Board's disposition, the alleged perpetrator will have 30 days to request a judicial review.

Background Screening and Investigation Unit: The Background Screening and Investigation Unit conducts background checks through the child abuse/neglect systems in CD. These checks are run on prospective foster and adoptive parents for CD and for current or prospective employees in the child care industry (day care, residential care providers, schools, etc.). The purpose of the unit is to provide information on potential employees so that a prospective employer can assess if the person is appropriate to care for children. During 2010, the unit processed 108,484 background checks.

Mandated Reporter Referrals: The state child abuse/neglect law mandates certain professions (mandated reporters) to make a report to the Missouri Children's Division when they have reasonable cause to suspect that a child has been or may be subjected to abuse or neglect. However, many times the mandated reporter may not suspect abuse or neglect but has some other concern about a family.

From July 1996 to June 30, 2010, the division accepted referrals of concern from mandated reporters which did not rise to the level of a Child abuse or neglect report. The Division referred to these calls as Mandated Reporter Referrals. During this period, the referral was sent to a county office for possible responses including:

- The mandated reporter was made aware of appropriate community resources in order to provide a referral for the family.
- The reporter or CD staff contacted the family by telephone to assist the family in arranging the referral as necessary.
- CD staff made a visit the family to obtain additional information and assess the needs of the family.
- CD staff determine that, based upon additional information, a child abuse/neglect report was necessary.

During 2010, there were 9,980 Mandated Reporter Referrals.

As of June 30, 2010, the process for how the Division would respond to Mandate Reporter referrals changed. Rather than referring calls that do not meet the statutory mandate of abuse and neglect to the field, hotline staff document the concerns and, based on the topic of the call, provide referral contact information, as available, directly to the caller. In short, callers receive the referral contact information directly from the hotline worker, rather than being contacted with it later by someone in the field. This immediate communication regrding available resources to the caller allows for a quicker referral to the family through collaboration with professional partners. This change also provides assurance that local offices can respond in the most efficient manner possible to reports that meet the statutory definition of Child Abuse and Neglect. Reports received from mandated reporters are referred to field staff if there is an open case on the family.

Newborn Crisis Assessments and Services: CD collaborates with the Department of Health in conjunction with the Department of Mental Health and the Department of Elementary and Secondary Education to address the increasing problem of substance abusing pregnant women and drug exposed infants. Missouri law requires the Departments of Health, Mental Health, Elementary and Secondary Education, and Social Services (CD) to provide a non-punitive system of educational and treatment services related to the prenatal consumption of alcohol and other drugs. This inter-departmental effort is known as the Perinatal Substance Abuse Advisory Council. This council meets quarterly to discuss issues related to the needs of the drug-exposed infant, substance abusing pregnant women, assessment process, training, accessing available resources, legislative and policy changes.

In most instances, CD receives a Newborn Crisis Assessment Referral, via the CA/N hotline, from the physician or health care provider, who requests CD to conduct an assessment to determine the caretaker's suitability to care for an infant, or to provide protective services as directed by a physician. Following the completion of the Newborn Crisis Assessment, CD coordinates services with the Department of Health and the Department of Mental Health. Service Coordinators in the Department of Health's Bureau of Special Health Care Needs will provide health and developmental screenings throughout their involvement with the family. The Department of Mental Health provides drug treatment services for the substance abusing parent, as well as the family. In 2010, the Division received 2,996 reports from medical professionals for drug-exposed infants and subsequent assessment for services by CD.

Children reported to the Division for abuse and neglect are sometimes identified during the investigation process as having been exposed prenatally to drugs. In 2010, 247 children reported to the hotline for abuse and neglect were identified as drug-exposed.

Appendices*

*Data after 2009 for Northwest, Northeast, Kansas City and St. Louis Regions will reflect a change from past reports due to reconfiguration of regions based on county location.
